We confirm our cable of today's date as follows:

"Quote fortythree hundred dollars usual terms for fivehundred thousand sheets stamped paper printed on twentyfive percent rag bond paper 24 pounds substance. Stop. Can ship seventeen weeks after order. Stop. Airmailed revenue stamps quotations December 31st."

The price quoted of \$4,300.00 is of course U.S. Currency, C.I.F. Panamá, exclusive of consular fees and war risk insurance, and covers 500,000 single sheets of papel sellado in one denomination.

The sample of paper they sent is about a 40% rag paper, which is difficult to get now. Our quotation is for supplying stamped paper printed on a 25% rag content paper of the same weight as the sample, namely 24 lbs. substance.

We hope that this cabled quotation, as well as the quotations on the revenue stamps airmailed December 31st, 1941, will all reach you in time for bidding on January 7, 1942.

....The question of the new coat-of-arms was raised and it seems that the Columbian Bank Note Company did not take that into consideration in figuring out their prices. Of course the Government will not consider ordering new stamps that do not have the reformed coat-of-arms but, since it was not specifically mentioned in the "pliego de cargos", it is the Government's fault. In view of this it was decided that a new licitation will take place in about two weeks....

REVENUE STAMPS AND STAMPED PAPER

February 4, 1942.

✓
We have for acknowledgment your letter of January 26th, wherein you give us the amounts quoted by the Columbian Bank Note Co. for the 500,000 sheets of stamped paper and the 3 different kinds of revenue stamps, as well as the quotation of the Imprenta La Academia, Panama, for the stamped paper.

We note that the offer for stamped paper made by the Columbian Bank Note Company would hold good only until January 26th, officially becoming null and void after that date, and therefore not to be taken into account. Since at the time you wrote the letter apparently nothing had been decided, we are enclosing herewith a specimen of the papel sellado of the Estados Unidos de Venezuela - 50 céntimos (F10695), which we send you as a sample of the paper that we propose to use for Panamá should the order be awarded to us.

As far as we know, we are still able to supply the same type of paper but we would recommend to Panamá that they make an early decision, as we too cannot maintain our offer indefinitely.

As for the offer of the Imprenta La Academia, Panama, we suppose that what they intend doing is buying the watermarked paper here and doing the printing down there. We cannot conceive that the Government would give this business to them, in the first place -because we do not think that they are prepared to perform a printing job that will give the paper any security at all; and, in the second place, because we do not believe that they are equipped

REVENUE STAMPS AND STAMPED PAPER

-2-

properly to check the paper in the process of printing, since we understand they are only commercial printers and not security printers.

With regard to the stamp business, it is quite obvious from the figures quoted by the Columbian Bank Note Co. that they merely copied what we had quoted on the previous bid, only making a slight deduction of some 9% in order to be sure to underbid us and secure the business. We consider the procedure followed as most unethical and we again ask you to take up with the government the advisability of awarding this business to us.

They must remember that if we had not called their attention to it they would have ordered, and the Columbian Bank Note Company would have supplied, stamps which would have been in error. We were responsible for this not happening, so it would only be fair if the government were to either give us the whole order, as being the only ones that complied with the call for bids, or else award to us the stamp business and to the Columbian Bank Note Company the papel sellado, as a compromise.

Since so much time has elapsed since the date of your letter to the date of its receipt, and since in the meantime we have received no cable from you, we very much fear that by the time you receive this letter the business will have been awarded to the Colombian Bank Note Company. Just the same, we think you should make another protest and make our stand clear to the government, as we do not feel that in this instance we were treated with the consideration to which we are entitled.

Please return the enclosed specimen when it has served your purpose.

Yours very truly,

Asst. Manager Foreign Department.

REVENUE STAMPS AND STAMPED PAPER

February 24, 1942.

Original via air mail

We have for acknowledgment your letter of February 13th, enclosing copy of contract entered into by the Government with the Columbian Bank Note Company for the preparation of stamped paper and three types of revenue stamps.

While we are extremely disappointed that this opportunity passed for us to prepare the printing plates for these stamps for future business, we are glad to hear that you made several verbal protests but did not again make a written one, which would have gained us nothing practical and might have annoyed the Assistant Comptroller.

The next time you see the Assistant Comptroller you may mention that in spite of the outcome of the bids, still the American Bank Note Company is pleased that it was able, through its usual thorough methods and attention to all details, to have been of service to the Republic of Panama in calling attention to an obvious error it was about to make in the preparation of its own stamps.

You may keep the sample of stamped paper we sent you and we would appreciate your sending us a sample of the new papel sellado that the Government expects to receive from the Columbian Bank Note Company by June 15, 1942.

DUPLICATE SENT

January 6, 1943.

We read with much interest your letter of December 28th and the clippings enclosed therein regarding the counterfeiting of the 22 1/2 and 30 cent liquor tax stamps.

We note that the counterfeits were turned over to the Banco Nacional de Panamá for safekeeping, and we wonder if it would be possible for you to secure one each of these counterfeits and send them to us for examination. If this is not possible please try to ascertain whether the counterfeit stamps show our imprint or that of some of the other companies which have supplied these stamps.

While we are not particularly interested in stirring up this matter, which has probably subsided by now, we would, nevertheless be interested in any further comments or reports you may be able to give us.

It took a long time for the Columbian Bank Note Company to be able to ship the order of stamped paper and revenue stamps, blaming the world situation for it; on this account the Government was forced to validate 1941-2 stamps and paper remaining in circulation for the present biennium. When the order finally arrived from the United States, the Government started selling certsin series and has permitted the sale of 1941-2 stamps and paper as well.

We recall that the Columbian Bank Note Company was given a second opportunity to bid, their second figure supposedly having been based on furnishing Papel Sellado with the new coat of arms. We observe, however, that the coat of arms as printed on the sample sheet you sent us, does not agree with the specifications of Law No. 28, a copy of which you sent us with your letter of September 9, 1941, in that the moon is not shown in the central section of the shield and further where the Isthmus should be depicted there is shown two separate bodies of land.

We were very interested in reading your favor of the 6th advising us of the Revenue Stamps and stamped paper that will be required for the next two years and although you did not actually request a quotation at this time we decided to work up our figures and

Relative to the Papel Sellado to be supplied, we are figuring on a 25% rag content paper of the same grade that we figured on at the time of the aforementioned call in December of 1941. As the paper will have a special watermark, it will therefore have to be specially made and as the mills will not accept an order ~~xxxx~~ of this nature for less than one ton of paper, we will have to order sufficient to permit of printing 135,000 sheets. Therefore in addition to a price for 100,000 sheets, which was specified and which we can furnish for \$1,775. -- we also wish to give you a quotation for 135,000 sheets, for which quantity our price will be \$1,890. With reference to the watermark, we note that order reads "Watermark to be centered in each sheet etc." although the specimen form sent with your letter of April 3d 1944 does not have the watermark exactly centered. We find that it is three inches from the bottom and 4-1/4 inches from the top.

On receiving your favor of the 20th we looked at another sheet we have here of Papel Sellado as supplied to the above by a competitor, in which we find that the watermark is somewhat nearer the top than the bottom. We therefore feel that the variation you refer to is just one that has occurred in the course of manufacture and in connection with the execution of the above order it should be laid out to be centered as nearly as possible.

When so provided by endorsement on this Special Policy (or Certificate) at the time the same is issued (but not otherwise) the shipment described herein shall be separately insured against war risks subject to the terms and conditions hereinafter set forth.

WAR RISK INSURANCE (Form No. 3-J)

1. This insurance is only against the risks of capture, seizure, destruction or damage by men of war, piracy, takings at sea, arrests, restraints and detentions and other warlike operations and acts of kings, princes and peoples in prosecution of hostilities or in the application of sanctions under international agreements, whether before or after declaration of war, and whether by a belligerent or otherwise, including factions engaged in civil war, revolution, rebellion or insurrection, or civil strife arising therefrom, and including the risks of aerial bombardment, floating or stationary mines and stray or derelict torpedoes; but excluding claims for delay, deterioration and/or loss of market, and warranted not to abandon (on any ground other than physical damage to ship or cargo) until after condemnation of the property insured. Also warranted not to abandon in case of blockade, and free from any claims for loss or expense in consequence of blockade or of any attempt to evade blockade; but in the event of blockade, to be at liberty to proceed to an open port and there end the voyage.
2. Warranted free from any claim based upon loss of, or frustration of, the insured voyage or adventure caused by arrests, restraints or detentions.
3. This insurance does not cover any loss or damage caused by or resulting from any of the following causes:
- (a) Commandeering, preemption, requisition or nationalization by the government (de facto or otherwise) of the country to or from which the goods are insured.
 - (b) Seizure or destruction under quarantine or customs regulations.
4. This insurance shall not attach to the interest hereby insured or to any part thereof
- (a) prior to being on board an overseas Vessel (for the purpose of this clause 4 an overseas Vessel shall be deemed to mean a Vessel carrying the interest from one port or place to another where such voyage involves a sea passage by that Vessel),
 - (b) after being discharged overseas from an overseas Vessel at the final port of discharge,
- or
- after expiry of fifteen days counting from midnight of the day on which the overseas Vessel is safely anchored or moored at the final port of discharge, whichever shall first occur,
- (c) at a port or place of transshipment to another overseas Vessel after the expiry of fifteen days (counting from midnight of the day on which the overseas Vessel entering with the interest is safely anchored or moored) until the interest is on board the oncarrying overseas Vessel.
- In the event of the exercise of any liberty granted to the Shipowner or Charterer under the contract of affreightment whereby such contract is terminated at a port or place other than the destination named therein such port or place shall be deemed the final port of discharge for the purpose of this clause 4.
5. Subject to the terms of Clause 4 above and to any conditions or warranties which may be endorsed hereon, it is agreed that this insurance shall not be vitiated by deviation, over-cargo, change of voyage, or by any error or unintentional omission in the description of interest, Vessel or voyage, provided the same be communicated to this Company as soon as known to the Assured and an additional premium paid if required.
6. And in case of any loss or misfortune, it shall be lawful and necessary to and for the Assured, his or their factors, servants and assigns, to sue, labor and travel for, in and about the defense, safeguard and recovery of the said goods and merchandises, or any part thereof, without prejudice to this insurance; nor shall the acts of the Assured or Assurers, in recovering, saving and preserving the property insured, in case of disaster, be considered a waiver or an acceptance of an abandonment; and to the charges whereof, the said Assurers will contribute according to the rate and quantity of the sum hereby insured.
7. General Average and salvage charges (resulting from a peril hereby insured against) payable according to Foreign Standard or York-Antwerp Rules if in accordance with the contract of affreightment.
8. The Assured and payee hereunder, the description and valuation of the merchandise, the sum insured, the voyage and the ports of loading on and discharge from the overseas Vessel, shall be determined by reference to the attached Certificate or Special Policy and shall be deemed incorporated herein; and losses payable hereunder shall be adjusted and settled in the same manner as provided for in the said Certificate or Special Policy. It is agreed, however, that this war risk insurance is a separate contract and (excepting as expressly provided in this clause 8) is not subject to any terms or conditions contained in or endorsed on the Certificate or Special Policy to which it is attached.
9. Notwithstanding anything to the contrary contained herein or endorsed hereon, this insurance is subject to the following warranty and the following conditions and exclusions:
- (a) This insurance is warranted free from any claim arising from capture, seizure, arrest, restraint, detention, condemnation, preemption, requisition, commandeering or confiscation of vessel or cargo by or under authority of the Government of the United States of America or of any State or territory thereof or the Government of Great Britain or any country forming part of the British Empire or any Government allied or associated with any of the foregoing in the prosecution of hostilities or warlike operations, including all parties signatory to the "United Nations Pact"; but unless the insured property is subject to condemnation, this warranty shall not exclude losses which occur while the insured property is on board the overseas vessel and are caused by gunfire, torpedoes, bombs, mines or other implements of war, or by stranding, sinking, burning or collision, provided such losses would be covered by this insurance in the absence of this warranty and would not be covered by a Marine Insurance Policy warranted free of claims arising from capture, seizure or detention.
 - (b) If the insured property shall be discharged from the overseas vessel at a port other than its intended port of discharge, under orders of any Government mentioned in the foregoing warranty or of the Government of the country whose flag the vessel flies, this insurance shall terminate 15 days after such discharge; provided, however, that if the original adventure is not frustrated and the insured property is reshipped for its original destination without undue delay, then this insurance shall reactivate when the property is laden on an overseas vessel, though the port of discharge had been a scheduled port of transshipment.
 - (c) It is understood that the following shipments are excluded from any coverage whatsoever under this insurance, viz: shipments to or from an enemy country or any country or territory with which (at the time when the shipment is laden on the overseas vessel) trading is forbidden by the laws of the United States or the laws of Great Britain; and shipments carried on vessels operated or controlled from any such country or territory.

PAPEL SELLADOAir Mail

December 6, 1944.

We acknowledge receipt of your cable of yesterday asking about the shipment of the Papel Sellado under the contract of May 10th.

On top of the delay due to the paper mill having been late in getting to us the paper for this order, we have now been up against a further delay in dispatching it due to the fact that the steamer for which we had it booked and which was to have sailed before this was withdrawn at the last minute. However, we have now arranged for shipment by a vessel which is expected to sail very shortly and we are confident it will be in Panama by the end of the month, as advised you in our cable of today.

Yours very truly,

Ast. Manager Foreign Department.

AGENDA Nº1

AL PLIEGO DE ESPECIFICACIONES PARA EL SUMINISTRO DE PAPEL SELLADO.

En las hojas de papel sellado que en calidad de muestra fueron adjuntadas al pliego de especificaciones apareció, en la parte superior, un escudo con siete estrellas que correspondían a las siete Provincias en que quedó dividida la República en virtud de la Ley que creó los Ayuntamientos Provinciales.

Como las disposiciones legales que crearon la mencionada división territorial fueron derogadas, y restablecida la antigua que establecía las nueve Provincias, es preciso dejar constancia que en el escudo que exorna la parte superior de las hojas de papel sellado deben aparecer nueve estrellas en lugar de siete, en representación de las nueve Provincias actuales.

Memorandum No.1

in connection with specification sheet for
supplying stamped paper

In the sheets of stamped paper attached to the specification sheet, as a sample, there appeared at the top a coat of arms with seven stars, corresponding to the seven Provinces in which the Republic was divided by virtue of the Law creating the Provincial Governments.

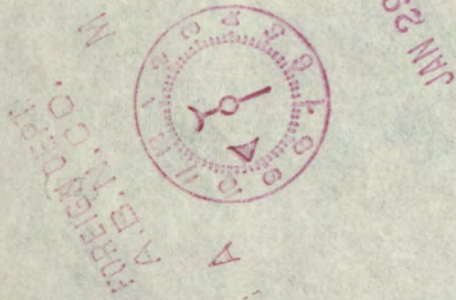

As the legal regulations creating the said territorial division were annulled, and the old one which established the nine Provinces re-established, it is necessary to record that in the coat of arms adorning the top part of the sheets of stamped paper, there must be nine stars instead of seven, representing the present nine Provinces.

The coat of arms in the watermark has, likewise, only 7 stars. Alteration in the stamp roll? (IW)

supplying stamped paper

In the sheets of stamped paper attached to the specification
sheet, as a sample, there appeared at the top a coat of arms with seven stars,
corresponding to the seven provinces in which the Republic was divided by virtue
of the law creating the Provincial Governments.
As the legal regulations creating the said territorial division
were annulled, and the old one which established the nine Provinces re-established,
it is necessary to record that in the coat of arms showing the top part of the
sheets of stamped paper, there must be nine stars instead of seven, representing
the present nine Provinces.

AGENDA Nº1

AL PLIEGO DE ESPECIFICACIONES PARA EL SUMINISTRO DE PAPEL SELLADO.

En las hojas de papel sellado que en calidad de muestra fueron adjuntadas al pliego de especificaciones apareció, en la parte superior, un escudo con siete estrallas que correspondían a las siete Provincias en que quedó dividida la República en virtud de la Ley que creó los Ayuntamientos Provinciales.

Como las disposiciones legales que crearon la mencionada división territorial fueron derogadas, y restablecida la antigua que establecía las nueve Provincias, es preciso dejar constancia que en el escudo que exorna la parte superior de las hojas de papel sellado deben aparecer nueve estrallas en lugar de siete, en representación de las nueve Provincias actuales.

Please be advised that we are making proposals to the above on 160,000 single sheets of papel sellado (two denominations), overall size 217 x 328 m.m. (about 8 9/16 x 12 15/16 inches) to carry two litho printings on the face and one on the back, on 25% Rag Bond, 24 lb. substance, with special localized watermark for which the existing dandy roll will have to undergo an alteration, changing the seven stars on top of the coat of arms to nine.

As from the previous order we have 35,000 sheets left, we are making two proposals: a) based on using these overs, plus the needed new sheets, all carrying the old watermark; b) based on watermark made with the modified dandy roll.

We are making proposals to supply the above with 100,000 single sheets of papel sellado of B/0.50 and 60,000 single sheets of B/0.01, size overall 217 x 328 m.m., litho printed as previously (F11771), on 25% rag bond 24 lb. substance, special localized watermarked paper, for which the existing dandy roll will have to undergo a change, to wit: the seven stars at the top of the coat of arms will have to be replaced by nine stars. Engravings on hand at the Bronx will have to be altered in consequence.

However, we will also make a proposal on the basis of the existing dandy roll, as we have left 35,000 sheets already watermarked, from the last order.

Bidding will have to be made by the middle of February and in case we are awarded the order, we will have to have it shipped before May 15th. Will you please advise us at once if this will be feasible?

Mr. A. L. Schomp, President

We acknowledge your letter of January 30th regarding the prospective order on above.

We have been advised by the E. E. Lloyd Paper Company that the alteration to the dandy roll will require about two weeks and cost approximately \$40.00.

They want about four weeks to make the paper after receipt of roll.

We should have the paper in the Plant not later than April 1st in order to ship not later than May 15th.

In view of this will it not be advisable to have the dandy roll altered in order that there may be no delay in that respect?

In regard to altering the engravings we believe we can do a creditable job on our litho material at less cost.

Air Mail

February 4, 1946.

We thank you for your letter of January 26th on the above subject and in reply thereto please be advised that our price for 100,000 single sheets of papel sellado of 50 centésimos, for the Bienio 1945-1946, and 60,000 single sheets of 1 centésimo without any designation of the Bienio, for which we would use, as last, our 24 lb. paper containing 25% rag, will be \$1,900.00 U.S. Currency, F.O.B. New York.

This price includes changing of the 7 stars to 9 stars in the lithographed coat of arms as well as in the watermark.

If, however, we are allowed to use the old watermark with 7 stars, making the necessary alteration only on the lithographed coat of arms, our price for the above quantity will be \$1,850.00 U.S. Currency, F.O.B. New York.

For a quantity of 200,000 sheets divided between two denominations, all other details as above, our price will be \$2,300.00 and \$2,250.00 U.S. Currency, F.O.B. New York respectively, which would mean a lower price per thousand than above quoted.

We expect to be able to complete this work ready for shipment in approximately 13 to 14 weeks after receipt of the order. If, however, we may use the watermark with the 7 stars, the work would take two weeks less.

For your information we may add that conditions prevailing here at present entitle us to anticipate higher costs for the future.

Wishing you success in obtaining this order, we are

Thanks for your letter of February 4, 1946 giving me quotations on stamped paper.

After consultation with the interested Government officials, I have to advise you as follows:

The coat-of-arms should have nine stars both in the litographed work as well as in the watermark. Another change in the coat-of-arms will be the motto. According to the new Constitution which is to be ratified very soon, the old "Pro Mundi Beneficio" is to be adopted instead of "Honor, Justicia y Libertad" used during the last four years.

Since an alteration like this is bound to change the quotations already received, I discussed the matter with the Comptroller General and he asked that I write a letter requesting that the auction bid be postponed for a week or ten days. This I did as per copy attached.

I also asked about section D. of the call for bids, reading:

*** "Los precios deben cotizarse por la Mercadería puesta en el almacén del Gobierno, impuestos pagados (should read "libre de impuestos".)

The prices you quoted are F. O. B. New York. The Contraloría insists on C. I. F. Please advise at your earliest convenience.

I will keep you advised of any further developments.

Very truly yours,

Estimado Señor Contralor:

Me refiero a la Licitación para el suministro de papel sellado, anunciada para llevarse a efecto el 16 de Febrero de 1946.

Verbalmente he sido notificada por la Contraloría General, que el escudo de Panamá, que deberá llevar dicho papel, tanto en la marca de agua como litografiado, debe aparecer con el viejo lema "PRO MUNDI BENEFICIO" en vez de "HONOR, JUSTICIA Y LIBERTAD" usado en los últimos años.

Este cambio, comunicado a último momento, desde luego tiene que alterar los precios ya cotizados para ofrecer en la licitación que se prepara. Hoy mismo he escrito a Nueva York a la casa que represento, comunicando esto pero como es tan corto el tiempo de que se dispone para que allá puedan hacer el cálculo necesario y enviar nuevos precios, me atrevo a sugerir que se posponga dicha licitación por una semana o diez días, dando así lugar a obtener nuevas cotizaciones.

Aguardando su respuesta quedo de usted atentamente,

We thank you for your letter of the 6th on the above subject and we regret that we were not successful in our bid. Our price for the kind of paper and workmanship which we offered was so closely calculated that it would have allowed us but an exceedingly small margin over the cost.

Please let us know whether the Columbian Bank Note Company keeps its promise for delivery, sending us at the same time a sample of the paper which they will furnish.

Yours very truly,

Asst. Manager Foreign Department

This is to confirm my radiogram of today, reading as follows:

"REFER LICITACION MARCH SECOND 160.000 STAMPED PAPER
GOVERNMENT REQUESTING WE PREPARE PLEASE CABLE QUICKEST TIME
YOU CAN SHIP PART BOTH ONE AND FIFTY CENT DENOMINATION ALSO
IF PRICE STILL SAME".

The Comptroller General called me this morning to ask if we could take care of this order in the shortest time possible, as the Government is in urgent need of some 1 and 50 cent stamped paper and they were hesitant about requesting the Columbia Bank Note Company of Chicago, who, although the lowest bidder in the "Call for bids" effected on March 2nd, would take from four to five months to prepare the order. I now await with interest your reply.

I also desire your advice on another subject; when radiograms of a non-confidential nature are sent, is it necessary to arrange them in code? Also, is it customary with the Company to prepare messages in code and part in plain English, so arranged that the coded portion cannot be deciphered?

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it repeated, that is, telegraphed back to the originating office for comparison. For this, one-half the unreported message rate is charged in addition. Unless otherwise indicated on its face, this is an unreported message and paid for as such, in consideration whereof it is agreed between the sender of the message and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the unreported-message rate beyond the sum of five hundred dollars; nor for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the repeated-message rate beyond the sum of five thousand dollars, unless specially valued; nor in any case for delays arising from unavoidable interruption in the working of its lines.

2. In any event the Company shall not be liable for damages for mistakes or delays in the transmission or delivery, or for the non-delivery, of any message, whether caused by the negligence of its servants or otherwise, beyond the actual loss, not exceeding in any event the sum of five thousand dollars, at which amount the sender of each message represents that the message is valued, unless a greater value is stated in writing by the sender thereof at the time the message is tendered for transmission, and unless the repeated-message rate is paid or agreed to be paid, and an additional charge equal to one-tenth of one per cent of the amount by which such valuation shall exceed five thousand dollars.

3. The Company is hereby made the agent of the sender, without liability, to forward this message over the lines of any other company when necessary to reach its destination.

4. Except as otherwise indicated in connection with the listing of individual places in the filed tariffs of the Company, the amount paid for the transmission of a domestic telegram or an incoming cable or radio message covers its delivery within the following limits: In cities or towns of 5,000 or more inhabitants where the Company has an office which, as shown by the filed tariffs of the Company, is not operated through the agency of a railroad company, within two miles of any open main or branch office of the Company; in cities or towns of 5,000 or more inhabitants where, as shown by the filed tariffs of the Company, the telegraph service is performed through the agency of a railroad company, within one mile of the telegraph office; in cities or towns of less than 5,000 inhabitants in which an office of the Company is located, within one-half mile of the telegraph office. Beyond the limits above specified the Company does not undertake to make delivery, but will endeavor to arrange for delivery as the agent of the sender, with the understanding that the sender authorizes the collection of any additional charge from the addressee and agrees to pay such additional charge if it is not collected from the addressee. There will be no additional charge for deliveries made by telephone within the corporate limits of any city or town in which an office of the Company is located.

5. No responsibility attaches to this Company concerning messages until the same are accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

6. The Company will not be liable for damages or statutory penalties in the case of any message except an intrastate message in Texas where the claim is not presented in writing to the Company within sixty days after the message is filed with the Company for transmission, and in the case of an intrastate message in Texas the Company will not be liable for damages or statutory penalties where the claim is not presented in writing to the Company within ninety-five days after the cause of action, if any, shall have accrued; provided, however, that neither of these conditions shall apply to claims for damages or overcharges within the purview of Section 415 of the Communications Act of 1934.

7. It is agreed that in any action by the Company to recover the tolls for any message or messages the prompt and correct transmission and delivery thereof shall be presumed, subject to rebuttal by competent evidence.

8. Special terms governing the transmission of messages according to their classes, as enumerated below, shall apply to messages in each of such respective classes in addition to all the foregoing terms.

9. No employee of the Company is authorized to vary the foregoing.

We were indeed glad to do our best to accommodate the Comptroller General, who approached you with the request to take care of the above order in the shortest time possible, request communicated to us with your cable and letter of the 21st instant reading:

"Refer Licitación March second 160,000 stamped paper Government requesting we prepare release cable quickest time you can ship part both one and fifty cent denomination also if price still same."

On the 22nd we replied as follows:-

"Retel March twentyfirst providing order placed immediately partial shipment each denomination ready eight weeks completing six to seven weeks thereafter Stop. Price remains per our telegram February twentyfirst Stop. Telegraph color un centésimo denomination Stop. Watermark to be same as previous order except adding two additional stars."

To your telegram of the 25th:-

"Government accepts our proposal stamped paper radio quantity each denomination complete eight weeks 25,000 each desired but anything will be accepted contract being prepared safe proceed with order color 14 brown for un centésimo denomination."

we wired you today as follows:

"Refer to your telegram of 25th 25,000 stamped paper each denomination will be completed and ready for shipment May 15th by first steamer. Thanks and congratulations."

From this you can readily see that we will have these partial quantities ready for shipment in seven instead of the eight weeks indicated. Likewise we anticipate to complete the entire order in about 6 to 7 weeks thereafter, i.e., by the end of June, unless there arise unforeseen circumstances beyond our control which, of course, we do not anticipate.

This arrangement will enable you to make a point, if you deem it advisable, of showing the Comptroller General that the Government's interests are not always best served when accepting our competitors' offers just because they might be a few dollars lower than ours, since our products are not only superior to theirs but also our service infinitely more prompt and dependable.

This is because, once we have the order, we consider it our duty to identify ourselves completely with the interests of our customers and, therefore, we always seek to serve them to the best of our ability.

Reiterating our congratulations on your success, we are

CERTIFICATE OF INSURANCE No. F 526330

FEDERAL INSURANCE COMPANY

INCORPORATED UNDER THE LAWS OF NEW JERSEY

CHUBB & SON, Managers

No. 90 JOHN STREET, NEW YORK 7, N. Y.

NEW YORK, N. Y., May 8th 1946

This is to Certify, That on Eighth day of May 1946

this Company insured under Policy No. FO-15090, for AMERICAN BANK NOTE COMPANY,
 the sum of Two thousand seventy and 00/100 Dollars.
 on Sixteen (16) cases printed matter

per Freight (Universal Carloading Co.) Under Deck, Valued at Sum Insured
 at and from New York, N.Y. to Chicago, Illinois to New York, N.Y. and/or other Steamer or Steamers,
 direct or otherwise

It is understood and agreed that in case of loss the same is payable to the order of
AMERICAN BANK NOTE COMPANY,

on surrender of this certificate, which conveys the right of collecting any such loss as fully as if the property were covered by a special policy direct to the holder hereof, and free from any liability for unpaid premiums. This certificate is subject to all the terms of the open policy, provided, however, that the rights of a bona fide holder of this certificate for value shall not be prejudiced by any terms of the open policy which are in conflict with the terms of this certificate.

The following Warranties shall be paramount and shall not be modified or superseded by any other provision included herein or stamped or endorsed hereon unless such other provision refers specifically to the risks excluded by these warranties and expressly assumes the said risks.

(A) Notwithstanding anything herein contained to the contrary, this insurance is warranted free from capture, seizure, arrest, restraint, detention, confiscation, preemption, requisition or nationalization, and the consequences thereof or any attempt thereat, whether in time of peace or war and whether lawful or otherwise; also warranted free from all consequences of hostilities or warlike operations (whether there be a declaration of war or not); but this warranty shall not exclude collision, contact with any fixed or floating object (other than a mine or torpedo), stranding, heavy weather or fire unless caused directly (and independently of the nature of the voyage or service which the vessel concerned or, in the case of a collision, any other vessel involved therein, is performing) by a hostile act by or against a belligerent power; and for the purpose of this warranty "power" includes any authority maintaining naval, military or air forces in association with a power.

Further warranted free from the consequences of civil war, revolution, rebellion, insurrection, or civil strife arising therefrom, or piracy.

(B) Warranted free of loss or damage caused by or resulting from strikes, lockouts, labor disturbances, riots, civil commotions or the acts of any person or persons taking part in any such occurrence or disorder.

In case of loss or damage please follow instructions on the reverse side of this certificate.

It is hereby agreed that any loss or claim under this Certificate shall be paid at the office of the Company in New York, or at the offices of the Agents of the Company, Exchange Buildings, Liverpool, or at the Agency of the Company at port or place of destination, or, if the Company is not represented at port or place of destination, at the nearest Agency amongst those specified in the list on back hereof.

Claims to be adjusted according to the usages of Lloyds, but subject to the conditions of the Policy and Contract of Insurance.

NOTICE—To conform with the Revenue Laws of Great Britain, in order to collect a claim under this Certificate, it must be stamped within ten days after its receipt in the United Kingdom.

Not valid unless countersigned by J. M. FLYNN or B. BERTOSEN

ON DECK—Merchandise and/or goods shipped on deck which must be so specified in this certificate are insured.—Free of particular average unless caused by the vessel being stranded, sunk, burnt, on fire, or in collision, but including jettison and/or washing overboard, irrespective of percentage.

1. This insurance attaches from the time the goods leave the Warehouse and/or Store at the place named in the certificate or special policy for the commencement of the transit and continues during the ordinary course of transit, including customary transshipment if any, until the goods are discharged outside from the overseas vessel at the final port. Thereafter the insurance continues whilst the goods are in transit and/or awaiting transit until delivered to final warehouse at the destination named in the certificate or special policy or until the expiry of 15 days (or 30 days if the destination to which the goods are insured is outside the limits of the port) whichever shall first occur. The time limits referred to above to be reckoned from midnight of the day on which the discharge outside of the goods hereby insured from the overseas vessel is completed. Held covered at a premium to be arranged in the event of transshipment, if any, other than as above and/or in the event of delay in transit of the above time limits arising from circumstances beyond the control of the Assured.

2. Held covered while on craft to and from the vessel. Each lighter or craft to be considered as if separately insured. The Assured not to be prejudiced by any agreement exempting lightermen from liability.

3. This insurance shall not be vitiated by any unintentional error in description of vessel, voyage or interest, or by deviation, over-carriage, change of voyage, transshipment or any other interruption of the ordinary course of transit from causes beyond the control of the Assured. It is agreed, however, that any such error, deviation or other occurrence mentioned above shall be reported to this Company as soon as known to the Assured, and additional premium paid if required.

4. Notwithstanding any average warranty contained herein, these assurers agree to pay any landing, warehousing, forwarding, or other expenses and/or particular charges for which this policy in the absence of such warranty would be liable. Also to pay the insured value of any package, piece, or unit totally lost in loading, transshipping or discharge.

5. In case of loss or injury to any part of a machine consisting, when complete for sale or use, of several parts, these assurers if liable therefor under the terms of this policy, shall only be liable for the insured value of the part lost or damaged.

6. In case of damage affecting labels, capsules or wrappers, these assurers, if liable therefor under the terms of this policy, shall be liable only for an amount sufficient to pay the cost of new labels, capsules or wrappers, and the cost of reconditioning the goods.

7. Including General Average and Salvage Charges according to United States laws and usage and/or as per Foreign Statement and/or as per York-Antwerp Rules (as prescribed in whole or in part) if in accordance with the Contract of Affreightment.

8. Including the risk of explosion, howsoever or wheresoever occurring during the currency of this insurance, unless excluded by the F. C. & S. Clause or the S. R. & C. C. Clause set forth herein.

9. Where this policy by its terms covers while on docks, wharves, or elsewhere on shore and/or during land transportation, such coverage shall include the risks of collision, derailment, or overturning of the conveyance, fire, cyclones, hurricanes, earthquakes, floods (meaning the rising of navigable waters), and/or collapse or subsidence of docks, and to pay loss or damage caused thereby, even though the insurance be otherwise F.P.A.

10. The assured are not to be prejudiced by the presence of the negligence clause and/or latent defect clause in the Bills of Lading and/or Charter Party. The seaworthiness of the vessel as between the assured and the Underwriters is hereby admitted and the wrongful act or misconduct of the shipowner or his servants causing a loss is not to defeat the recovery by an innocent assured if the loss in the absence of such wrongful act or misconduct would have been a loss recoverable on the policy. With leave to sail with or without pilots, and to tow and assist vessels or craft in all situations, and to be towed.

11. Warranted free of claim for loss of market or for loss, damage or deterioration arising from delay, whether such delay be caused by a peril insured against or otherwise, unless the risk of delay is expressly assumed in writing hereon.

12. Where goods are shipped under a Bill of Lading containing the so-called "Both to Blame Collision" Clause these assurers agree, as to all losses covered by this insurance, to indemnify the assured for this policy's proportion of any amount (not exceeding the amount insured) which the assured may be legally bound to pay to the shipowners under such clause. In the event that such liability is asserted the assured agrees to notify the assurers who shall have the right at their own cost and expense, to defend the assured against such claim.

13. Warranted that this insurance shall not inure, directly or indirectly, to the benefits of any carrier or bailee.

SPECIAL CONDITIONS

Under Deck shipments are insured:

Against all risks of loss or damage to the merchandise insured howsoever occurring, irrespective of percentage excepting risks excluded by the F. C. & S. (Free of Capture & Seizure) and Strikes, Riots and Civil Commotion Warranties appearing elsewhere hereon.

While on deck of ocean vessel:—

"Free of Particular Average unless caused by the vessel and/or interest insured being stranded, sunk, burnt, on fire or in collision with another ship or vessel or with ice or with any substance other than water, but liable for jettison and/or washing overboard, irrespective of percentage."

INCLUDING STRIKE RISKS

Any loss or damage which may happen to the property insured under this certificate shall be reported as soon as the goods are landed or the loss is known or expected to the agent of the Insurers located at the port of discharge or disaster (see list below). If there be no such agent at or near such port, such notice shall be given to and accepted by representative of the Board of Underwriters of New York. In case of loss or damage, produce this certificate for said agent's inspection and request him to hold a survey and issue a certificate stating the cause, and extent of the loss or damage. If there be no agent of the Insurers at the port of discharge or disaster, nor a representative of the Board of Underwriters of New York, certificate of survey should be obtained from Lloyd's agent at completion.

After the foregoing formalities have been complied with, the complete documents (survey report, policy, invoice, bill of lading, letter to carrier and latter's reply) should be sent to the Insurer's agents (named below) to enable them to decide as to the liability of the Insurers.

INSTRUCTIONS TO CLAIMANTS

When cargo is received from the carrier in a damaged condition, or in case of loss by theft, pilferage, non-delivery or negligence (if covered by this insurance) in order to save for yourselves or your underwriters, any rights which you may have against the carrier, it is necessary for you to file notice of claim in writing against the carrier before taking delivery of the goods. Claim in writing must be filed with the carrier as soon as the actual loss or damage is known and a copy thereof and a reply thereto must accompany any claim presented under this insurance certificate, in addition to the usual certificate of loss issued by the Underwriters Agent. Filing claim against the carrier will not affect your rights under your insurance certificate.

✓ We return, herewith, the four enclosures received with yours of the 5th, the 50 Centésimos patched proof having been approved for alteration and the 1 and 50 Centésimos specimens having been approved for use as copy.

We are surprised and uneasy to note that the three 50 Centésimos specimens (of which 2 used for patched proof and 1 for copy) show considerable color variation, one from another, although apparently all three are from the last order, F12274. We certainly trust there was no such color variation on the sheets delivered and which were shipped onward from here about the end of May, or we will undoubtedly be hearing from Panamá about it when they get around to unpacking all the order.

On the present order, F12313, will you please forward us proofs for approval of color when printing commences.

Dear Wash:

Re: Republic of Panama - Papel Sellado (F12313)

I wish merely to supplement the Foreign Department's letter to you yesterday about the variation in color of the printing on the previous order for this account.

I know I do not need to stress with you the damage that can accrue to our Company from such a faulty product.

We saw only three ⁴specimens, but if the variation disclosed is any criterion of the percentage throughout the job, it really is very bad. It does seem that the Manufacturing Division should have a better control over their output. I know you will spare no pains to see that their standards are brought up and practices established that will preclude a repetition of such results.

Yours very truly,

W.F.

STAMPS AND STAMPED PAPERAir Mail

July 16, 1946.

We refer to your letter of the 5th with which you sent us executed duplicate of contract No. 17, with reference to the delivery clause of which we cabled you yesterday as follows:

filed in stamp book

Refer to your letter of 5th clause 1 of contract unacceptable as we are unable to undertake delivery by October 15th as advised in our letter of May 2nd Stop. Expect to complete ready for shipment stamped paper during month of October but other items which are steel printed will require about a year as per our letter of June 5th however in about 2 weeks will be able to advise more definitely what can be done about stop Writing.

We do not believe the "force majeure" clause would cover our inability to deliver the stamps by October 15th, which we informed you in our letter of May 2nd it would be impossible to do. In our letter of June 5th we advised you it would perhaps take a year to complete this order and while we indicated the possibility that some categories could be completed sooner, the Government has requested partial lots of practically all categories, which is impossible of accomplishment this year.

You will readily understand that once the press is made ready for printing, it is about as easy to run off several thousand sheets as it is a few thousands. Furthermore, with many denominations, as there are in this instance, it is impossible to run them simultaneously and one denomination must be printed before the plates can be changed for the next denomination. Under the acute situation prevailing at present and with the press of prior commitments, we cannot promise a better completion than the aforementioned one year, although we are now studying the exact possibility very carefully and hope to be able to let you know in about two weeks just what we can do as to time of delivery for the various steel printed stamps and bands.

In the meantime the Government should be promptly advised and if the order cannot be modified, other than for the Papel Sellado, it should be cancelled now, as we cannot accept it in its present form.

The stamped paper, which is lithographed, permits of a more favorable situation in this respect and we will undertake to complete the 600,000 sheets ordered during the month of October, with partial deliveries as much earlier as possible, except in case of "force majeure".

We await further advice as to the Government's decision.

Yours very truly,

Asst. Manager Foreign Department.

The Ministry of the Treasury is in a fix, and I have been called to see if there is a possibility of the Company helping them out.

The National Assembly issued Law 49 of September 24, 1946 which, among other fiscal matters, says in Article 2, that there will be one kind of stamped paper only, with a value of "Un Balboa" (B/.1.00) per sheet. This law becomes effective January 1st, 1947. Such a measure, when there is an order of 600.000 sheets pending, has the officials of the Ministry all upset.

Although several weeks ago I informed the Minister that of all the items authorized by Contract 17 of June 27, 1946, only the stamped paper could be ready for shipment in October or November of the present year, they have asked me to please check again with you and for this reason I have just sent the following radiogram:

"Advise when do you expect to finish stamped paper if already done what quantity packed".

In the remote event that the stamped paper for some unforeseen reason is not printed as yet, I wish to submit to you what the Government wants:

1.- To change "Cinquenta Centésimos" (B/.0.50) and "Un Centésimo" (B/.0.01) for "Un Balboa" (B/.1.00) in the entire order, except 50.000 sheets which are needed to finish this year, even if they are marked for the next biennium.

2.- If the paper is already printed but not packed, could you have it all, except 50.000 sheets, overprinted in black or whatever color you see fit, with "UN BALBOA" (B/.1.00).

3.- If all the paper is already printed and packed, could you keep the 200.000 one cent sheets, unpack and overprint them with "UN BALBOA" (B/.1.00). In this case, the Government would give you all the time you could ask for to do this extra work.

In any of the three cases, the Government would naturally pay for the additional expense involved.

We all await with interest your reply.

Very truly yours,

Elena Ehrman

We thank you for your advice of the 26th concerning the time you estimate will be required to overprint a new value on the 200,000 sheets of 1 Centésimo. We are awaiting the Government's decision and until then will you please continue holding the 20 cases containing this denomination.

The balance of the order, however, consisting of 40 cases of 50 centésimos denomination should be dispatched to the Bronx Plant as soon as possible in accordance with the instructions on the order. We are enclosing herewith revised Temporary Exemption Certificate No. 21 to cover the said 40 cases. This certificate is to be substituted for the one enclosed with our letter of October 16th, which please return to us. Now that the trucking strike here has been settled we believe you should be able to forward these cases very shortly and we look for your advice that it has been done.

We acknowledge receipt of your favor of October 28th relative to the Papel Sellado included in Contract No. 17.

The expense of unpacking and overprinting with a new value the 200,000 sheets of 1 Centésimo will amount to \$1,400.-- U.S. Cy. and as nearly as we can calculate at this time it would take about two or three months to accomplish.

Pending your further instructions in this respect we will withhold shipment of the said denomination but will forward the 400,000 sheets of 50 Centésimos at the first opportunity.

INSTRUCTIONS

(See also Regulations 113)

1. Amounts paid within the United States for the transportation of property by rail, motor vehicle, water, or air from one point in the United States to another, in course of exportation, or in course of shipment to a possession of the United States, are exempt from tax if the shipper or other person paying such charges (a) executes and files, in duplicate, a temporary exemption certificate, Form 798, with the agent of the carrier at the time of payment of the transportation charges; and (b) within 6 months from date of shipment from the point of origin, and after receipt of evidence of exportation of the property covered by Form 798, executes and files a corresponding certificate of exportation, Form 799 (original copy) with the Commissioner of Internal Revenue, attention: MT:M, Washington 25, D. C. The duplicate copy of Form 799 should be retained with the shipping papers for a period of 4 years. If a certificate of exportation is not received within 6 months from the date of shipment from the point of origin, the tax on the amount paid for the transportation will be assessed against the person paying such charge.

Each temporary exemption certificate, Form 798, in duplicate, shall be numbered consecutively beginning with No. 1, and again beginning with No. 1 at the beginning of each calendar year. Each certificate of exportation, Form 799, shall bear the number of the temporary exemption certificate, Form 798, to which it relates.

It is permissible to execute and file one Form 799 with respect to a number of temporary exemption certificates by attaching thereto a

2. If a break for a business purpose occurs in the transportation movement covered by a temporary exemption certificate, amounts paid for the transportation from the point of origin to the point where the break occurred, are taxable. Likewise, a shipment from a point within the United States to a port of exportation, which is not made pursuant to an order, proposal of purchase, or other written evidence of intention to export, antedating the delivery of the shipment to the carrier, is taxable.

3. No certificates, Form 798 or 799, are required for shipments moving on through bills of lading or through export bills of lading, or on bills of lading showing shipments consigned to an Army or Navy officer charged with the duty of receiving such shipments at a port of exportation, or for shipments consigned to the War Shipping Administrator at the port of exportation.

4. The carrier receiving a temporary exemption certificate, Form 798, in duplicate, shall retain the duplicate copy with the paid transportation document, and forward the original securely attached to its monthly return, Form 727, to the Collector of Internal Revenue for the district in which the carrier's principal place of business is located.

5. The term "United States" includes the territories of Alaska and Hawaii. Accordingly, unless otherwise exempt, amounts paid for the transportation of property to Hawaii or Alaska are taxable.

was none on hand and the order prepared by us was late in arriving.
In this respect, I wish to inform you that the 400,000 sheets of
standard paper sent on the "Christopher Gale" are already here. They
now need to be overprinted with B.1.00 before they are put into
circulation.

Very truly yours,

Elton L. Smith

C. P. R.
JAN 10 1947

We thank you for having sent us with your letter of the 3rd a copy of decree No. 999 together with a sample of the stamped paper prepared locally pursuant to that decree.

We observe that the coat of arms in the center of the sheet appears to be a faint surface printing rather than a true watermark.

Yours very truly,
